## RARE & VINTAGE HOT TEA

---

*by Teance Fine Teas*

**AGED HONEY JIA LONG SPRING 2012** 17.  
**OO LONG TEA - TAIWAN**

This extremely special tea is crafted by a single person in Taiwan who holds a secret patent on the method for oxidating his teas from the Jinshuan variety - a type of leaf developed in Taiwan in the 1980s to grow well in today's climate. This 3 year old Oolong is not only fragrant and floral, but has vibrant honey and apricot flavors from this special aging process.

**PU-ERH 18 YEAR AGED** 20.  
**YUNNAN PROVINCE, CHINA**

The Yunnan province is essentially the "cradle of life" for teas. So it's no surprise that its iconic tea, Pu-Erh, dates back to 300BC and is one of the oldest teas in existence. After this tea is harvested, it is sundried and allowed to ferment. This extremely earthy, mushroom-like tea is one of our favorites and tastes even better with each steeping.

**KOYAMA EN HIGH-GRADE "CHOAN" MATCHA** 24.  
**UJI, JAPAN**

Koyama En has been producing matcha since the 1800s, served Japan's royal family and has been recognized by Japan's Grand Master of tea ceremony as one of the best producers of matcha. This top-quality matcha, Choan, is thick and rich on the palate, but its flavors are soft, elegant and reminiscent of fresh flowers with the umami of nori seaweed. Each serving is one 5oz. bowl.
